Reason for Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 1-22 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a two-dimensional timing state compensator for a self-servowriting system comprising specifically of two inputs and two outputs, wherein the first input is the timing error and the first output is a control signal for a controlled oscillator, the second input is the second output stored from previous operation of writing the servo track. It is noted that, the closest prior art, Chainer et al (USPN 5,901,003) teaches a system for improving placement of timing patterns in self servo writing including correcting for random and systematic errors. However, Chainer et al fails to disclose a two-dimensional timing state compensator for self-servowriting comprising specifically of two inputs and two outputs, wherein the first input is the timing error and the first output is a control signal for a controlled oscillator, the second input is the second output stored from previous operation of writing the servo track.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication from the examiner should be directed to Fred Tzeng whose telephone number is 571-272-7565. The examiner can normally be reached on weekdays from 9:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Hudspeth can be reached on 571-272-7843. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9306 for regular communications and 703-746-5710 for After Final communications.

4. Informal regarding the status of an application may be obtained from the Patent Application Information Retrieval (**PAIR**) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
